

Corporate Quality Policy

Biogreen is committed to producing Australian reed sedge peat and peat based products of a high and consistent quality, so that we will always satisfy the stated and implied expectations of our customers and consumers.

Each of us at Biogreen undertakes, as a matter of personal responsibility, to work continuously as a team to improve our products and our service to our customers. We also accept the responsibility of listening to our customers and consumers, as well as the industry at large, to ensure that our products continue to provide value to all involved.

We are determined to support all our products with sound scientific data and to promote and conduct research and development that not only adds value to our products and our Company, but also makes a positive contribution to the society in which we live.

We aspire to being leaders in our industry and to be recognised for our uncompromising quest to produce brands that provide value for money for our customers and positive returns for our shareholders.

Mike Walker
