

The choice of professionals

SUPERIOR RESULTS WITHOUT THE SMELL

Superior Boost Pro is a slow release peat based fertilizer with trace elements, suitable for a wide range of plants, both indoor and outdoor. It is ideal for lawn preparation and renovation of warm and cool season grasses.

Superior Boost Pro can be mixed into soil or applied to the surface of pots or garden beds.

100g of Superior Boost Pro will treat approximately eight 15cm pots or one square metre of garden bed or lawn area.

THE BENEFITS

- Improves soil moisture retention
- Improves soil structure
- Better plant growth guaranteed
- No Smell
- Safe around children and pets
